

Equipment Sales

US Med-Equip has ISO 9001:2015 certified, patient-ready new or refurbished equipment available for purchase with thousands of items in stock from the following categories: central supply, infusion, monitors, telemetry, NICU, respiratory, furnishings, parts and more. All equipment purchases include a 1-year repair or replacement warranty.

Prompt and Personalized Service

- Same day shipment available
- Fast callback and turnaround time with quick access to decision makers
- Flexible, customized packaged deals

Rental with Buyout Option (RBO)

- Purchase rental equipment on a 12-36 month term
- We take care of all maintenance during term of agreement
- Easy, no-hassle paperwork requirements

Earned Discount

- We apply 25% of your rental payments toward purchase
- Makes purchase of rental units easy and predictable
- Reduces burdens due to lost equipment

Leasing

- Allows for longer payouts to reduce strain on cash flow
- Turnkey maintenance options available
- 24 to 60 month terms available

Warranty Coverage

- Each item sold includes a 1-year repair or replacement warranty
- Extended warranty coverage may be available for an additional charge
- All purchased equipment warranty information available through mySMARTS online

At a time when patient safety and cost-savings are of paramount importance, we realize the value refurbished equipment can bring to your facility.

Our equipment is serviced by factory-trained biomedical technicians and undergoes a rigorous safety and quality control process.

8 Step Refurbished Equipment Sale Process:

1. Clean and Inspect (QC Team)
2. Test (Biomed Team)
3. Repair and Refinish (Refurbish Team)
4. Re-Inspect (QC Team)
5. Inventory to patient-ready status (Equipment Team)
6. Available for Purchase (Sales Team)
7. Qualify per specs of the purchase order (Biomed Team)
8. Final Quality Control and Warranty (QC Team)
